Hi, you have done an excellent job.
May I know why you haven't included "clearfix" class ?

Hi Akhila. Oops, the cleafix class has now been added to the list. Thank you for letting me know.

Very handy! I am just learning Bootstrap and with the bootstrap.css file containing so many items including normalize and glyphsicons it gets a bit cluttered. This list helps reduce the clutter and helps zoom in on what I want to accomplish and illustrates how it will look. Thank you!
